Swiss Valley – Service L2

Dear Sir,

I was saddened and disappointed to see my constituents further disenfranchised from the bus network with the current raft of service changes.

I write to ask that the L2 service be extended to help people who do not have their own means of transport to get themselves to work. If workers in the town centre who live in Swiss Valley want to get to work by bus they simply cannot do so through your scheduling.

Anyone holding down a full time job between the hours of 9am and 5:30pm cannot use your bus service to get to work. This has been the same for some time.

Furthermore, pupils who used to catch the bus along Felinfoel road, in order to come up to Swiss Valley are now unable to do so. The Ammanford services simply do not offer the best times (166/128) and of course they only drop off on request bus stops on the main road (A476), which still leaves a walk.

Of particular concern is the case of a registered blind mother who was distressed at the bus changes and her subsequent loss of ability to catch the bus from the nearest bus stop to her, which was Felinfoel brewery, in order to get her child up to Swiss Valley School for 9am. I'm sure you'll agree that a case like this highlights how vital your service can be in the community.

Overall we are glad of a service, but can I please urge you to look again at these 2 essential points on behalf of my constituents and pupils of Swiss Valley School.

I look forward to your reply.

Yours Sincerely,
Giles Morgan
